Correct Answers: C

3: After synchronization, OSPF routers communicate in which state?

- A.Two-way
- B.Adjacency
- C.Link state
- D.Unconnected
- E.Full neighbor

Correct Answers: E

4: How many keys are used for public-key encryption? (Enter a number.)

Correct Answers: 2

5: Which are ICMP message types? (Choose 4.)

- A.Checksum
- B.Source Quench
- C.Datagram Express
- D.Echo Request and Reply
- E.Destination Unreachable
- F.Time Exceeded for a Datagram
- G.Destination Address Request and Reply

Correct Answers: B D E F

6: Your company uses the IP address 168.212.0.0 with subnets 168.212.64.0 and 168.212.128.0. What is the appropriate subnet mask for your company?

- A.255.255.0.0
- B.255.255.128.0
- C.255.255.192.0
- D.255.255.224.0
- E.255.255.255.0
- F.255.255.255.128

G.255.255.255.192

H.255.255.255.224

Correct Answers: C

7: What is the purpose of the ROUTE utility?

A.Views a host's route table

B.Compares entries in multiple router tables

C.Adds entries in a link state routing database

D.Forces a client to use a specific routing protocol
