

Vendor: iSQI

Exam Code: IREB

Exam Name: IREB Certified Professional for Requirements Engineering

Version: DEMO

QUESTION 1

The activity diagram below shows a simplified order processing procedure. Which of the following statements is correct for this flow? (2 Points)

- A. The flow is not modelled correctly, since no condition (branch) should be present within a fork.
- B. The flow is modelled correctly: the goods branch as well as the export and domestic order branch are processed in parallel to one another.
- C. The flow is not modelled correctly, since the branches for the domestic and export orders must be consolidated via a diamond symbol.
- D. The flow is modelled correctly and the "issue invoice" activity is conducted after the "compile goods" activity.

Answer: C

QUESTION 2

For an interview, you have prepared a use case diagram for the system to be specified. You decide to talk through a use case in detail with the stakeholder. You receive very useful feedback which must now be documented. Which of the following means of expression is least suitable to document the details of a single use case? (1 Point)

- A. State diagram
- B. Activity diagram
- C. Natural language
- D. Context diagram
- E. Class diagram

Answer: D

QUESTION 3

In a meeting held with the goal of validating a set of requirements, two participants become involved in an in-depth discussion about the content of a requirement. One of the participants is of the opinion that the requirement must be realized as described, since the success of the product is otherwise jeopardized. The other party dissents and argues that this requirement cannot be realized technically as described. What is the best way for you to react to this situation? (1 Point)

- A. You note both arguments and let the project manager make the decision.
- B. You invite all stakeholders to a workshop and try to reach agreement.
- C. You prefer the second opinion since you believe that the discussion makes no sense if the requirement cannot be realized.
- D. You get together with the affected stakeholders and attempt to reach an agreement on this.

Answer: D

QUESTION 4

Within system development, conflicts continually arise between stakeholders with regard to the requirements. As a requirements engineer, how do you handle conflicts in projects best? (1 Point)

- A. You resolve the conflict with the best resolution technique available to you.
- B. You analyze the conflict, try to bring about a solution with a suitable technique and document

relevant information about the conflict.

- C. You ignore the conflict since this is a matter for project management.
- D. In order to resolve such conflicts you escalate them via the escalation paths defined in the project.

Answer: B

QUESTION 5

You would like to design a requirements document in such a way that it is particularly well suited to the project participants who are to continue working with it. Please select from the following statements the two most appropriate assignments of requirement properties to participants. (1 Point)

- A. For the tester the requirements must be practicable.
- B. For the developers the requirements must be easily changeable.
- C. For all participants the requirements must be consistent.
- D. For the project manager the requirements must be evaluated.
- E. For maintenance the requirements must be testable.

Answer: CD

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
