

Vendor: Cisco

Exam Code: 642-242

Exam Name: Unified Contact Center Enterprise
Implementation (UCCEI)

Version: DEMO

QUESTION 1

The Cisco Unified Contact Center Enterprise can queue calls at different queue priorities. In this sample script, at what priority will the call be queued?

- A. Three (3) - As set in the Queue Priority node.
- B. Five (5) - The default for the Queue to Skill Group node, unless it was set otherwise.
- C. None, as queue priority only is used when more than one skill group is used in the Queue to Skill.
- D. It depends, as each call hitting the script will reset the priority for all calls when the Queue Priority node is executed.

Answer: B

QUESTION 2

When configuring a Cisco Unified Communications Manager dial plan to allow for dialing 911 or placing other emergency calls, where should Urgent Priority be checked off in?

- A. route pattern
- B. route list
- C. route group
- D. calling search space

Answer: A

QUESTION 3

When setting up the Cisco Unified IP IVR 4.1(x) to communicate with Cisco Unified Communications Manager, how do you configure the IP IVR to communicate with more than one Cisco Unified Communications Manager server in the cluster?

- A. On the JTAPI Provider Configuration web page, there are two fields to input the IP addresses or host names of the Cisco Unified Communications Manager servers.
- B. On the JTAPI Provider Configuration web page, you can enter only one Cisco Unified Communications Manager server for the JTAPI provider.
- C. On the JTAPI Provider Configuration web page, list the IP addresses or host names of the Cisco Unified Communications Manager servers separated by a comma.
- D. On the JTAPI Provider Configuration web page, enter the IP address or host name of the publisher and when you synchronize the configuration, the IP IVR will automatically configure the available Cisco Unified Communications Manager servers.

Answer: C

QUESTION 4

In the Cisco Unified Contact Center Enterprise solution, how are CTI route points and CTI ports created in the Unified IP IVR 4.0(x)?

- A. CTI route points and CTI ports are created and associated to the IP IVR user in Cisco Unified Communications Manager Administration prior to configuring the CTI route points in the IP IVR in the CRS Administration menu.
- B. CTI route points and CTI ports are created from the CRS Administration menu. The CRS Administration will automatically create and associate the CTI route points and CTI ports in Unified Communications Manager.
- C. CTI route points and CTI ports are created from the CRS Administration first and then the CTI route points and CTI ports are associated to the correct user using Unified Communications Manager Administration manually.
- D. CTI route points and CTI ports can either be created from the CRS Administration menu or from the Cisco Unified Communications Manager Administration as long as the CTI route points and CTI ports are associated to the correct IP IVR user profile.

Answer: B

QUESTION 5

In a Cisco Unified ICM routing script, what is the best way to assign a sales call a higher priority in the system?

- A. At the beginning of the Sales routing script, use the Queue Priority node to set the priority of all calls hitting that script to 1.
- B. In the Queue to Skill Group node, set the call priority to 1 for any Sales skill group queue nodes.
- C. In the Queue to Skill Group node, set the call priority to 10 for any Sales skill group queue nodes.
- D. Use a Queue Priority node for support and other non-sales calls with priority 1.

Answer: B

QUESTION 6

Media termination points in Cisco Unified Communications Manager provide media services such as call hold and call transfer for a call routed to an H.323 endpoint. To configure an MTP resource, which two items must be configured? (Choose two.)

- A. MTP type
- B. MAC address
- C. media routing domain
- D. device pool
- E. location

Answer: AD

QUESTION 7

In the Cisco Unified Contact Center Enterprise solution, the same object is configured in multiple components. Choose the correct set of matching terms that fill in the missing object names in each component.

ICM		CCM		IP IVR
Dialed Number	↔	1	↔	None
Trunk Group	↔	CTI Port	↔	2
3	↔	CTI Route Point (IP IVR)	↔	JTAPI Trigger

- A. 1 = CTI route point
2 = JTAPI call control group
3 = DNIS (temporary label)
- B. 1 = CTI route point
2 = Dialog control group
3 = DNIS (temporary label)
- C. 1 = CTI port
2 = JTAPI call control group
3 = CTI route point
- D. 1 = CTI route point
2 = JTAPI call control group
3 = None

Answer: A

QUESTION 8

In the Cisco Unified Contact Center Enterprise solution, when a CTI Server on a Peripheral Gateway fails, which of the following will not occur?

- A. CTI OS Server disconnects all active agent CTI OS desktop clients from failed server.
- B. CTI OS Agent Desktop clients attempt to automatically connect to another CTI OS Server.
- C. CTI OS Agent Desktop clients display an "Offline" message.
- D. Both CTI OS Servers perform a graceful shutdown to reset CTI OS Agent Desktop client connections.

Answer: D

QUESTION 9

In the Cisco Unified Communications Manager 4.1(x), what is the first step to create a new CTI route point to be associated with a JTAPI user?

- A. Create the CTI route point device and assign a directory number.
- B. Using device association, map the CTI route point directory number to the JTAPI user.
- C. Create a calling search space that includes the JTAPI user and CTI route point directory number.
- D. Create a new directory number and associate it to the JTAPI user.

Answer: A

QUESTION 10

A Cisco Unified Contact Center Enterprise routing script can send calls directly to a pre-defined label or extension on a Cisco Unified Communications Manager IP Phone. What is the impact of that sort of routing on the system?

- A. The Cisco Unified Contact Center Enterprise solution will automatically take the call back based on the ring-no-answer settings for the agent group associated with the call if no one answers within the timeout parameter.
- B. The Cisco Unified Contact Center Enterprise solution cannot send calls outside the defined range of agent extensions / device targets in the system.
- C. The Cisco Unified Contact Center Enterprise solution loses track of the call and reports it as "transferred out".
- D. The Cisco Unified Contact Center Enterprise solution does not lose track of the call if the call is transferred to a monitored or agent extension / device target in the system.

Answer: C

QUESTION 11

In the Cisco Unified Contact Center Enterprise solution, if the Cisco Unified Communications Manager subscriber for the Cisco voice gateway is down, how will incoming calls be treated?

- A. The call will get a "fast busy" and be terminated by the gateway.
- B. The voice gateway will reroute the call to a secondary CTI route point.
- C. The voice gateway will use the alternative/backup subscriber in the cluster for call control.
- D. The voice gateway will route around the subscriber to an IP IVR port.

Answer: C

QUESTION 12

What is the correct order of steps to install a new Cisco Unified IP Phone for a Unified Contact Center Enterprise agent in Unified Communications Manager 5.x?

- A. add device and device type, select model, enter the MAC address, and assign to device pool
- B. add peripheral and peripheral type, select model, and assign to device pool
- C. add phone, select model, enter the MAC address, and assign to device pool
- D. add agent, select model, enter the MAC address, and assign to device pool

Answer: A

QUESTION 13

Which of the following is not recommended to reside on the C: drive partition of any Cisco Unified ICM Server?

- A. Microsoft SQL Server log files
- B. Core Unified ICM software
- C. Microsoft SQL Server
- D. Unified ICM Historical Data Server Database

Answer: D

QUESTION 14

In the Cisco Unified Contact Center Enterprise, a Dialed Number Plan can be created to make it easier for agents to perform transfers. Which of the following dialed numbers are invalid for agents to dial from the plan?

- A. SALES
- B. 3%45
- C. 3333
- D. TEC123

Answer: B

QUESTION 15

In the Cisco Unified Contact Center Enterprise solution, if an agent is in a Reserved state, which of the following actions can the agent take?

- A. Log off.
- B. Change state to Not Ready.
- C. Answer the call being sent to them.
- D. Enter wrap-up data from the prior call.

Answer: C

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
