- A. Deskew
- B. Line removal
- C. Dot Removal
- D. Border removal

Answer: B

QUESTION 6

A solution designer has a lot of users who will be using the IBM Datacap Taskmaster Web Client accessing the new tmweb.net site. Assume the following has been done: Open C:\Datacap\support\WebConfiguration folder and make backup copy of WebClientConfig.exe.config file Open WebClientConfig.exe.config file and change server name in:

```
<value>http://localhost/tmweb.net</value> Save and close .config file
```

What else needs to be done to implement and configure all of the users' Internet Explorer web browsers?

- A. Send WebClientConfig.exe.config, Datacap.Config.dll, and WebClientConfig.exe.
- B. Send WebClientConfig.exe.config, Datacap.Config.dll, and WebClientConfig.exe to user with instructions to run IE test page.
- C. Send WebClientConfig.exe.config, Datacap.Config.dll, and WebClientConfig.exe to user with instructions to add tmweb.net address as Trusted Site, configure and test Internet Explorer using package.
- D. Send WebClientConfig.exe.config, Datacap.Config.dll, and WebClientConfig.exe to user with instructions to add tmweb.net address as Restricted sites, configure and test Internet Explorer using package.

Answer: C

QUESTION 7

In IBM Datacap Taskmaster Capture V8.0.1, the recommended HA configuration for Taskmaster Server is Active/Passive using a Microsoft Cluster. In Taskmaster V8.1 multiple Taskmaster servers can be configured Active/Active for an application for load balancing and/or failover. A solution designer wants to take advantage of using Rulerunner, to have the ability to roam back and forth periodically among Taskmaster servers. Which file needs to be edited to allow this capability?

- A. .APP file
- B. PATHS.ini
- C. settings.ini
- D. Imagefix.ini

Answer: A

QUESTION 8

A pharmaceutical company has faxed documents and some of the documents have the content skewed. What method is used to de-skew the content on the faxed documents using the IBM Datacap Taskmaster system?

- A. Use the action Rotate Image.
- B. Cannot de-skew because of fax line present at beginning of image.
- C. Using image enhancement actions, de-skew the contents of the image.
- D. Redact the fax line and then use image enhancement action, de-skew the contents of the image.

Answer: D

QUESTION 9

A system administrator has setup an IBM Datacap Taskmaster architecture which includes using Active Directory (ADSI) domain accounts to logon to Datacap. The Taskmaster server has already been configured for ADSI and the domain groups have been configured within each application. What credentials should be entered by the end user to access the IBM Datacap tmweb application?

- A. Logon to the workstation as a domain user account, when prompted for credentials enter only domain user's short name, leaving the password field blank.
- B. Logon to the workstation as a domain user account, when prompted for credentials enter a valid Datacap Taskmaster Authentication username and password.
- C. Logon to the workstation as a local user account, when prompted for credentials enter the full user name (user@company.com) and the domain account's associated password.
- D. Logon to the workstation as a domain user account, when prompted for credentials enter the full user name (user@company.com) and the domain account's associated password.

Answer: A

QUESTION 10

Analysis of a customer requirements shows that 10 million new documents need to be scanned and ingested each day from various sources at various worldwide locations. These documents must be in the corporate archive by the beginning of the next business day. Which option should the solution designer recommend as being the MOST reliable and cost effective document ingestion solution?

- A. Overnight shipping of all documents to the central site which has many high-speed scanners.
- B. Distributed capture to be performed at various regional centers with centralized indexing and control.
- C. Courier contracts from outlying locations to regional centers with high-speed scanners connected to the corporate archive.
- D. Distributed capture with localized indexing and control, this has multiple scan sites feeding regional centers with high-speed dedicated connections to the corporate archive .

Answer: D

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
