

Vendor: IBM

Exam Code: C2080-470

Exam Name: IBM Unica Campaign V8.5

Version: DEMO

QUESTION 1

A table Customer_master contains 1000 customer_ids. A select box was created and all the customer_ids from the table were selected. However, when the select box was run, the output cell contained only a fraction of the total customers. When a test query was performed in the above mentioned select box, all 1000 customers were selected. What could be cause of this issue?

- A. Global suppression.
- B. The Select process was not configured properly.
- C. The table mapping of Customer_master are out-of-date.
- D. Incorrect audience level has been chosen for the Customer_master table.

Answer: A

QUESTION 2

A user is trying to create RAW SQL in a Select process. "Select IDs with" is selected but when the user clicks on the advanced button the "RAW SQL for Record Selection" check box is greyed out. What is the user doing wrong?

- A. The correct tables are not mapped in.
- B. A SQL Custom Macro has not been created.
- C. The Select process is in Point and Click mode.
- D. Unica Campaign is not connected to the database.

Answer: C

QUESTION 3

A specialist is responsible for making sure that Unica Campaign flowcharts run successfully. If an error occurs, the specialist needs to be informed by email. Therefore, the specialist creates a batch script which interacts with the mail server and sends an email to the IT department helpdesk to be informed in case problems arise in a Campaign flowchart. Where can the specialist best relate to this script from within the Campaign flowchart? The specialist creates an outbound trigger, invokes the batch script in the trigger, and:

- A. assigns a trigger in a mail list or call list process.
- B. schedules a trigger to run on a case-by-case basis.
- C. uses the eMessage process to send out these emails.
- D. assigns it in the Advanced settings section on the Campaign flowchart and has the trigger run on Flowchart Run Error.

Answer: D

QUESTION 4

The custom macro has been configured to select on "audience id" and a return value. When this custom macro is executed an error is received. What could cause this problem?

- A. There are user variables used in the custom macro.
- B. The Expression Type is configured incorrectly for the custom macro.
- C. The custom macro is the same as one of the Campaign built-in macros.
- D. The custom macro is too large for the fields in the temp table (<TempTable>).

Answer: B

QUESTION 5

In a Unica Campaign flowchart Select process, how can a custom macro be profiled so that it appears in the Select process "Available Fields" menu?

- A. Select "Options" from the main menu in a flowchart, choose "Custom Macros...". Click "New Item" and add the macro name and field expression. Go to the "Select" process and choose the macro from the "Available Fields" column.
- B. Select "Options" from the main menu in a flowchart, choose "Custom Macros...". Click "New Macro" and add the macro name and field expression. Go to the "Select" process and choose the macro from the "Available Fields" column.
- C. In the "Select" process box, create a "Derived Field" with a field name Profile_Test and enter the macro name in the expression field. Go to the "Select" process "Source" tab and select the macro from the "Available Fields" column.
- D. In the "Select" process box "Source" tab, click the Input field and the drop-down list appears. Go to "Tables", select "UA_CUSTOMMACROS", and select the macro from the list. Select the macro when it appears in the "Available Fields" column.

Answer: C

QUESTION 6

A user is mapping a flat file into Unica Campaign. The user needs to ensure that the file ends with a:

- A. tab.
- B. comma.
- C. closing bracket.
- D. carriage return, line feed.

Answer: D

QUESTION 7

Within a flowchart a user wants to switch audiences from the Household level to the Customer level. In order to do this, a table containing both columns is necessary. This can be accomplished by mapping a table:

- A. into the catalog twice, once at the Household level and once at the Customer Level.
- B. into the catalog and select the Household column and the Customer column when selecting the audience level.
- C. in as a base table at the Household level and then map the same table in as a dimension table joined to the base table on the Customer column.
- D. in at the Household level as a table is normally mapped and then use the "Specify Additional Audiences" screen to select the Customer column within the table.

Answer: D

QUESTION 8

A user is designing a Campaign flowchart. The user wants to retrieve and use a derived field

which was saved in a previous Campaign. Which of the steps below is correct to achieve this task?

- A. The user cannot retrieve derived field expressions saved in other Campaigns.
- B. Search the previous Campaign and copy the required derived field expression.
- C. Retrieve the expression from the Stored Derived fields directory from the Options menu.
- D. Retrieve the expression from the Stored Derived fields directory in a Select process box.

Answer: D

QUESTION 9

A user needs to output data from a Unica Campaign flowchart and does not need to utilize the data within the flowchart. This can be done by creating and outputting the data to a:

- A. fact table.
- B. general table.
- C. dimension table.
- D. base record table.

Answer: B

QUESTION 10

A user has added a new Unica Campaign Attribute and would like to make that attribute available to the Cognos reports. To do this, the user needs to:

- A. use the Reports SQL generator to update the existing reporting views.
- B. use the Reports SQL generator to create new views which include the new attribute.
- C. do nothing, once the new column is added the reports model is automatically updated.
- D. use the Cognos application administrator to create a new data framework which includes the new attribute.

Answer: B

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
