

Vendor: IBM

Exam Code: M2140-649

Exam Name: IBM Rational Systems & Software Engineering Sales Mastery Test v2

Version: DEMO

QUESTION 1
How does Rhapsody help reduce development time?

A. It automatically makes adjustments for changes in concept.
B. It manages the workload for the entire project.
C. It generates applications and documentation from the design model.
D. It imports design data from existing reports and documentation.

Answer: C

QUESTION 2
What challenge is typical in companies developing complex systems and products?

A. The inability of people to work together on a project, regardless of role.
B. The advent of multiple new programming languages and techniques.
C. Inconsistent directives from senior management.
D. A qualitative underreporting of client usage statistics.

Answer: A

QUESTION 3
In the Smarter Products and Systems Solution Whiteboard there is a "V" process diagram. Which part of the V-diagram represents testing?

A. The left side to show the hierarchy of tests down to the component test level.
B. The right side to represent the unit verification and system validation against the requirements and design/implementation.
C. The bottom of the "V" since both component and unit testing occurs after requirements and before deployment.
D. Across the top of the entire "V" since testing must be done early and throughout the systems development process

Answer: B

Explanation:
