QUESTION 2

According to Trusteer a balanced approach to the "Security Dilemma" will address which of these items?

- A. Management
- B. Security
- C. Usability
- D. All of the above

Answer: D

QUESTION 3

When touting QRadar and its abilities to help customers address advanced threats, which 2 points are the best ones to highlight?

- A. QRadar's NSS ratings and its open architecture enable the best defense for "low and slow" attacks.
- B. QRadar is integrated with the full set of AppScan products and with the full set of Guardium solutions, thereby covering application and database advanced threats, which are the most prevalent types of advanced threats.
- C. QRadar works well with IBM's network protection and intrusion prevention offerings, and QRadar benefits from regular Security Intelligence feeds from IBM's X-Force R and D team.
- D. QRadar is Opensource technology, meaning any of the best minds in the world can make technical contributions to make it better. And because of this, many of the hackers who are developing advanced threats can also contribute technologies/code to defend.

Answer: C

QUESTION 4

Who are typical target buyer(s) for Trusteer?

- A. Chief Information Officer (CIO)
- B. Line of Business and Chief Information Security Officer (CISO)
- C. Chief Marketing Officer (CMO)
