Vendor: HP

Exam Code: HP0-M102

Exam Name: HP Unified Functional Testing 12.x Software

Version: DEMO

QUESTION 1
Which HP Unified Functional Testing feature can be installed as a standalone application?

A. Object Repository Manager
B. Run Result Viewer
C. Log Tracking Manager
D. Object Spy

Answer: B
Explanation:
We can install the Run Results Viewer as a standalone installation. This enables us to share the results of our tests with business analysts and developers who do not work with QTP.

QUESTION 5
What provides information about supported UFT tool integrations?

A. Trace ability Matrix.
B. Add-in Specification dialog box.
C. Product Availability dialog box.
D. Product Availability Matrix

Answer: B

QUESTION 6
What is the function of the Analog Recording mode?

A. to record at object level, regardless of location
B. to record exact coordinates of objects
C. to record object positions relative to other objects
D. to record mouse and keyboard operations

Answer: D
Explanation: Perform the operations you want to record in Analog Recording mode. All of your keyboard input, mouse movements, and clicks are recorded and saved in an external file.
When QTP runs the test, the external data file is called. It tracks every movement and click of the mouse to replicate exactly the operations you recorded.
