Vendor: Citrix

Exam Code: 1Y0-205

Exam Name: Citrix Virtual Apps and Desktops Administration

Version: DEMO

QUESTION 1
Which Citrix Director view will allow a Citrix Administrator to view data on the current CPU, as well as memory and disk latency for a machine running the Virtual Delivery Agent (VDA)?

A. Resource Utilization
B. Load Evaluator Index
C. Machine Utilization
D. Capacity Management

Answer: A
Explanation:
The Resource Utilization view in Citrix Director provides real-time data on CPU, memory usage, and disk latency for VDA machines. This allows administrators to monitor system performance and identify resource bottlenecks affecting user sessions.

QUESTION 2
Scenario: A Citrix Administrator needs to configure StoreFront to allow external users access to internal resources. The external users will authenticate on StoreFront. Which StoreFront authentication method can the administrator configure?

A. Smart card
B. Username and password
C. HTTP Basic
D. Pass-through from NetScaler Gateway

Answer: D
Explanation:
For external access, authentication is typically performed at Citrix NetScaler (now Citrix ADC). StoreFront must then be configured with the "Pass-through from NetScaler Gateway" authentication method, allowing StoreFront to accept and trust the authentication performed externally.

QUESTION 3
Which of the following is NOT a feature of Citrix StoreFront?

A. Auto-Launch Desktop
B. Workspace Control
C. Store Favorites (Subscriptions)
D. Auto Client Reconnect

Answer: D
Explanation:
Auto Client Reconnect is a feature of the Citrix client (Citrix Workspace app), not StoreFront. StoreFront provides features such as auto-launch desktop, workspace control, and favorites (subscriptions) for resource access and management.

QUESTION 4
A Citrix Administrator is concerned about the way that web pages and video render on the backend Virtual Delivery Agent (VDA) workloads. The administrator wants to find a way to for the web pages to render on the client device instead of on the VDA. What feature should the administrator use to accomplish this?

A. Enlightened Data Transport
B. Browser Content Redirection
C. Microsoft Teams Optimization
D. Citrix Optimizer

Answer: B
Explanation:
Browser Content Redirection offloads the rendering of web pages and multimedia from the VDA to the client device. This reduces CPU and memory load on the VDA while improving performance and user experience on the endpoint.

QUESTION 5
After creating a new machine catalog, a Citrix Administrator notices that the Virtual Delivery Agent (VDA) machines fail to register. What could the administrator have done to cause this condition?

A. Selected an incompatible VDA functional level in Citrix Studio
B. Selected an invalid VM naming scheme in Citrix Studio
C. Failed to run the Citrix Health Assistant
D. Failed to take a VM snapshot prior to creating the catalog

Answer: A
Explanation:
If an incompatible VDA functional level is selected when creating the machine catalog, the VDA machines cannot register with the Delivery Controllers. The functional level must match or be supported by the installed VDA software version.

QUESTION 6
A Citrix Administrator wishes to deploy catalogs of machines using Machine Creation Services. Which two things must be configured and setup to accomplish this? (Choose two.)

A. Citrix StoreFront
B. Hosting Connection
C. Citrix Delivery Controller
D. Citrix Policies
E. NetScaler Gateway

Answer: BC
Explanation:
To deploy machine catalogs with Machine Creation Services (MCS), a hosting connection (to the hypervisor or cloud environment) must be configured to provide resources, and a Delivery Controller must be available to manage provisioning and brokering of the machines.

QUESTION 7
Scenario: A Citrix Administrator is configuring the Citrix Workspace app to allow users to access their applications and desktops. Management requires that users can log on to the environment from any device without having to remember the server address. What should the administrator do to meet these requirements?

A. Allow users to download the configuration from Citrix.com.

B. Deploy and configure the Citrix Workspace app using scripts.
C. Configure the Citrix Workspace app using a Group Policy Template File.
D. Configure a DNS Service Record for the Citrix Workspace app.

Answer: D
Explanation:
By configuring a DNS SRV record pointing to the StoreFront or Citrix Gateway address, users can log on to Citrix Workspace without manually entering a server address. This allows seamless access from any device while meeting management's requirement for ease of use.

QUESTION 8
Which components should be defined with the Resource Layer? (Choose three.)

A. NetScaler Gateway
B. StoreFront Stores
C. Virtual Delivery Agents
D. Citrix Virtual Apps and Desktop Sites
E. Host Connections
F. Citrix Virtual Apps and Desktop Zones
G. Images
H. Personalization settings

Answer: CEG
Explanation:
The Resource Layer in Citrix Virtual Apps and Desktops defines the components that provide compute and application resources to users. This includes Virtual Delivery Agents (VDAs) that deliver apps and desktops, host connections to the underlying hypervisor or cloud, and images that serve as the basis for machine provisioning.

QUESTION 9
Which command must a Citrix Administrator run on the Citrix Director machine to integrate the NetScaler Console appliance with Citrix Director?

A. DirectorConfig.exe /configNetscaler
B. Set-MonitorConfiguration
C. DirectorConfig.exe /configscom
D. Set-LogSite

Answer: A
Explanation:
To integrate the NetScaler (Citrix ADC) Console with Citrix Director, the administrator must run the command DirectorConfig.exe /configNetscaler on the Director machine. This enables Director to display NetScaler Gateway and HDX Insight data.

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

★ More than **99,900** Satisfied Customers Worldwide.

★ Average **99.9%** Success Rate.

★ **Free Update** to match latest and real exam scenarios.

★ **Instant Download** Access! No Setup required.

★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.

★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.

★ **100%** Guaranteed Success or **100%** Money Back Guarantee.

★ **Fast**, helpful support **24x7**.
